## **6. FAQ**

### **6.1. I cannot submit my application, why?**

The “**Submit Application**” button is available only at the “**Review/Submit**” step of the online application process (step 8 of 8). It is active only if your application is linked to a job opening.

If the “**Submit Application**” button is disabled/greyed out and the top of the page says “**Applying for: You have not selected a job**”, click on “**Exit**” and then “**Job Search**” to find a suitable job opening. Once you have found such a job opening, click on the “**Apply Now**” button in the considered job posting.

Note that to be able to submit an application, all the required fields must be filled and the considered job opening should neither be closed, nor cancelled nor filled with roster candidates.

## 6.2. The list of screening questions is empty, why?

Screening questions appear only when you apply to a job opening. They do not appear if you create an application that is not linked to any job opening by using the "Create Draft Application" button (as explained in section 3 of this document). These questions are specific to the job opening and must be answered before submitting your application.

## 6.3. What is "Recruit from Roster" job opening? How can I become a roster applicant?

"Recruit from Roster" job openings are only open to roster applicants who are already placed on pre-approved rosters, following a review by a United Nations Central Review Body. Only roster applicants who were placed on rosters with similar functions at the same level are considered to be eligible candidates.

For more information about rosters and roster management, please refer to:

- The UN Careers website (under "[Application process](#)" > "7. Selection notification");
- Chapter 14 in the [Instructional Manual for the Applicant](#);
- The HR Portal (<https://hr.un.org>).

## 6.4. I have just submitted my application but I have not received any email confirmation: how do I know if my application has been received?

To check if your application has been received, simply check its status.

To do so, log into inspira and click on the "[My Applications](#)" icon:

All your applications along with the ID numbers of the job openings you applied to are listed under the "My Applications" table. If the status of your application is "[Applied](#)" or "[Under Consideration](#)", then your application has been received. If you cannot find your application, select "[All Applications](#)" in the "[Display applications from](#)" dropdown menu and click on "[Refresh](#)".

You may also want to check that the email address recorded in your profile is correct and that the **spam/junk filter** of your email account is configured to allow emails sent from the **un.org** domain.

## 6.5. Nothing happens when I click on the "View/Print PHP" printer icon , what should I do?

- Go to "Tools" > "Internet Options"
- In the "Privacy" tab, click on "Sites"
- In the "Address of website" field, enter **un.org** and then click on "Allow"

### 6.7. I am unable to upload my files in inspira, what should I do?

To be able to upload files, make sure you can tick all the items in the below check list:

- File size** is less than 1 Mb (if your file is larger, please scan it in a lower resolution)
- File name** is short and without any special characters (for instance, *Initials\_Bachelor-degree.pdf*)

### 6.8. Can I withdraw an application in inspira?

Yes, you can withdraw an application from the “My Applications” table of your inspira account. Note however that withdrawing an application does not allow you to submit a new application for the same job opening.

### 6.9. Can I update an application already submitted?

No, as indicated in the Terms and Agreements, no changes can be made after the application has been submitted.

### 6.10. I cannot find my university when adding my education details, what should I do?

For post-secondary education, a database of degrees from 16,000 university-level institutions compiled by UNESCO and the International Association of Universities (IAU) is used to streamline the validation of degrees through inspira.

If you cannot find your university or school when adding your education details to your application, we recommend that you perform the following steps:

- a) Click on the look-up icon  at the end of the “**Name of Institution**” field.
- b) Click on the “**Advanced Lookup**” link.
- c) Select “**contains**” in the “Long Description” dropdown menu and then enter part of the name of your institution (for example *Chicago* if you are looking for *University of Chicago*).
- d) If no result is found, search for “**Other Institution**”. Note: If you select “Other Institution”, a new text field “Please enter name of institution” field is automatically added allowing you to be more specific.

Note: The fact that your degree may not be part of the UNESCO's and IAU's database will not prejudice your application. Under such circumstances, HR practitioners will conduct further checks during the background verification stage.
